

SO Walk 2025

Bad Weather Arrangements

If the Hong Kong Observatory issues a weather warning signal after 4:00 AM on the day of the event, the organisers will implement the following adverse weather arrangements:

- **Typhoon Warning Signal:**
Signal No. 3 or above: Event cancelled.
- **Thunderstorm Warning / Rainstorm Warning Signals:**
Thunderstorm warning or yellow/red/black rainstorm warning: Event cancelled.

Notes:

1. The event will proceed as scheduled under a standby signal (Signal No. 1). If participants choose to continue attending, they must be cautious about traffic safety when travelling to and from the venue; the organisers will not be held responsible.
2. If the aforementioned adverse weather warning signals are issued during the event, the organisers will terminate the event and arrange for participants to leave the venue safely. Participants who choose to leave the venue without following instructions do so at their own risk; the organisers will not be responsible.
3. If the event is forced to be cancelled or terminated due to adverse weather, the organisers will not reschedule the event or issue refunds.
4. If adverse weather occurs on the day of the event, please check the event's Facebook page for the latest arrangements.

If you have any questions, please contact the SideBySide Branding and Communications Department.
